

6 AWG - 336 MCM THREE PHASE CABLE VERTICAL SPACER FOR LV

This specification details the product 6 AWG - 336 MCM Three Phase Cable Vertical Spacer for LV, #6 AWG - 336 MCM

Features

- Developed to support and separate distribution power line conductors.
- The Spacer is made of track-resistant, UV-resistant, gray highdensity polyethylene.
- Shatter-resistant.
- This Spacer has been designed for use on distribution systems rated up to and including 1 kV.
- This Spacer meets industry-accepted mechanical and electrical criteria.

General	
Material - Body	High-density polyethylene
Plated	No

Dimensions	
Dimensions	2.01 in x 2.49 in x 26.28 in
Height	26.28 in
Length	2.01 in
Weight	0.441 lb
Width	2.49 in

Electrical Ratings	
Rated voltage	Up to and including 1 kV

Conductor Related	
Conductor Size	6 AWG - 336 MCM

Logistics	
Packaging Type	Box
